

**Bristol County District Attorney's Office
C. Samuel Sutter District Attorney**

**Press Release
August 10, 2010**

The body of Stephen L. McMann, 49, of Berkley, was recovered around 11 a.m. today by Massachusetts State Police Divers in the area of the Taunton River near Bicentennial Park in Fall River.

Mr. McMann had been missing since Sunday night, when the 1986 Center Console 18-foot motorized boat he was apparently operating appears to have collided with a retaining wall near Bicentennial Park. The boat was discovered later Sunday evening, and a search for Mr. McMann commenced immediately.

The State Medical Examiner's Office has agreed to take custody of the body and will conduct an autopsy this week.
